| • Web Development      |           |   |

## Internship

### IT Infra Operations Engineer Intern | Department of Education | Philippines | December 2024 - March 2025

- Helped deploy Google Workspace for Education and Microsoft Teams to support remote learning and teacher collaboration.
- Provided remote troubleshooting for reported device issues (hardware/software) using Autodesk Remote Access, reducing downtime and improving response time.
- Contributed to improving workflow by supporting data management and system updates
- Handled IT procurement tasks, including coordinating with vendors for equipment, preparing purchase requests, and ensuring timely delivery of hardware/software needed by schools.
- Installed new ICT laboratories in public schools, including setting up desktops, networking equipment, and printers, while ensuring proper system configurations.
- Assisted in network setup and basic administration (LAN/WAN, IP addressing, Wi-Fi configuration, VPN support), ensuring secure and reliable school connectivity.
- Gained hands-on exposure to IT infrastructure operations, including system monitoring, backup procedures, and understanding IT service delivery aligned with ITIL best practices.

## ACCOMPLISHMENTS

- 3x Director's List Honoree (2021, 2022, 2024)
- Completed over 480 internship hours
- Recognized for collaboration and IT support excellence
- Best in Research and Best Presenter (Final Project)

## WORK EXPERIENCE

### Audio Transcription | Appen | Philippines | January 2020 - March 2020

- Increased client satisfaction by providing timely and accurate transcriptions for various industries.
- Delivered accurate transcripts using audio processing tools.
- Collaborated effectively with team members to produce high-quality transcriptions for complex projects.

### IT Support Engineer | M.S. Mallari Construction | Philippines | August 2024 - August 2025

- Delivered frontline IT support for 200+ office staff, resolving issues on desktops, laptops, printers, and mobile devices to ensure smooth daily operations.
- Maintained OS/software updates, patches and end point security tools, reducing vulnerabilities and aligning with cybersecurity best practices
- Assisted in system configurations, software deployments, and basic server maintenance, ensuring compliance with company IT policies.
- Monitored and troubleshoot LAN/WAN, VPN connectivity, and network switches, minimizing downtime and improving network performance.
- Supported office staff with technical training and guidance on new systems and applications.
- Gained exposure to Active Directory user account management, email setup, antivirus/security tools, and data backup procedures.
- Supported hardware and peripheral maintenance, including preventive servicing and replacement planning.
- Provided technical training and guidance to end users on new tools and applications, improving digital adoption and productivity.
- Gained exposure to cloud technologies (Microsoft Azure, Google Workspace) backup solutions, and basic IT asset management practices.
- Implemented basic IT security measures (multi-factor authentication, access rights management, antivirus monitoring) contributing to improved data protection and compliance

## PROJECTS

### Library Managements System (C++)

- Created an extensive C++ library management system to effectively handle the collection's books. Functionality for managing users, monitoring books, and loaning and returning books have been implemented. Made use of object-oriented programming concepts to guarantee the system's scalability and maintainability.

### Inventory Management System (Visual Basic .NET)

- Designed and implemented an Inventory Management System using Visual Basic. Developed intuitive user interfaces for inventory tracking and reporting. Implemented features for real-time inventory updates.

### Personal Website Portfolio (Html/CSS, Javascript)

- Designed and developed a personal website portfolio showcasing professional skills, projects, and achievements.

### Web-Based Internship Portal (Node.js, Vue.js)

<https://ojtracker.vercel.app/>

- Collaborated with a team to build an internship portal for DHVSU students and employers. Designed and implemented a web-based platform using modern web development technologies. Developed features for student registration, internship postings, application submission, one account one device, time rendering and verification.
