WORK EXPERIENCE

Audio Transcription | Appen | Philippines | January - March 2020

- Increased client satisfaction by providing timely and accurate transcriptions for various industries.
- Delivered accurate transcripts using audio processing tools.
- Collaborated effectively with team members to produce high-quality transcriptions for complex projects.

Tech Support | M.S. Mallari Construction | Philippines | January 2024 - August 2025

- Delivered frontline IT support for 100+ office staff, resolving issues on desktops, laptops, printers, and mobile devices to ensure smooth daily operations.
- Maintained software updates and assisted in system installations.
- Assisted in system configurations, software deployments, and basic server maintenance, ensuring compliance with company IT policies.
- Monitored and troubleshooted LAN/WAN connectivity to minimize downtime.
- Supported office staff with technical training and guidance on new systems and applications.
- Gained exposure to Active Directory user account management, email setup, antivirus/security tools, and data backup procedures.
- Supported hardware and peripheral maintenance, including preventive servicing and replacement planning.
- Provided technical training and guidance to end-users on new tools and applications, improving digital adoption and productivity.

PROJECTS

Library Managements System (C++)

- Created an extensive C++ library management system to effectively handle the collection's books. Functionality for managing users, monitoring books, and loaning and returning books have been implemented. Made use of object-oriented programming concepts to guarantee the system's scalability and maintainability.

Inventory Management System (Visual Basic .NET)

- Designed and implemented an Inventory Management System using Visual Basic. Developed intuitive user interfaces for inventory tracking and reporting. Implemented features for real-time inventory updates.

Personal Website Portfolio (Html/CSS, Javascript)

- Designed and developed a personal website portfolio showcasing professional skills, projects, and achievements.

Web-Based Internship Portal (Node.js, Vue.js)

- Collaborated with a team to build an internship portal for DHVSU students and employers. Designed and implemented a web-based platform using modern web development technologies. Developed features for student registration, internship postings, application submission, one account one device, time rendering and verification. Conducted testing and debugging to ensure the portal's functionality and usability.
